Dear Jack,

Thank you for writing me about space exploration. I appreciate that you took the time to share your thoughts and concerns with me. I enjoy hearing from people all over the country about the issues that are important to them.

I am a strong supporter of our space program. It reflects the best of the American spirit of optimism, discovery and progress.

We need a balanced space and aeronautics program. We need to support solar system exploration as an important goal for our human and robotic programs, but only as one goal among several. And we need to invite other countries to share in a meaningful way in both the adventure and the cost of space exploration.

Again, your thoughts on this issue are important to me and I appreciate hearing from you.

Sincerely,

John Edwards
